Mystery Skulls

What can a skull tell you about its owner's life? Investigate a diversity of mammal skulls and learn how to interpret those adaptations that are necessary for survival.

Science of Sound

Get loud and clear with the physics of sound and learn how good vibrations are the source of the sound of music.

Solids and Liquids: Weird and Wonderful

Take a tour of these different states of matter. Through a series of demonstrations and hands-on activities, learn about the characteristics that distinguish solids from liquids. Then, discover some super secrets about weird solids and liquids!

Human Evolution

Where do we come from? Use replica skulls, artifacts, technology, and climate change data to construct six million years of evolution and discover one of the most captivating and rapidly growing fields of science.
